G.E.C. JOURNAL

OF SCIENCE AND TECHNOLOGY

VOLUME 30, 1963

Published by: **THE GENERAL ELECTRIC COMPANY LIMITED OF ENGLAND**

Head Office : 1 Stanhope Gate, London, W.1

Correspondence to : The Editor, Hirst Research Centre, Wembley, Middlesex

INDEX

volume 30, 1963

Inclusive page numbers for the year's issues are :

No. 1 (February) ..... 1 to 56
No. 2 (June) ..... 57 to 100
No. 3 (October) ..... 101 to 144

PAGE

A

'Ariel' satellite—Cosmic-ray measurements in the 39
Automatic recording of railway wagon movement 136

B

Blades for 500-MW turbines—Vibration properties of 45

C

Cable links in Italy—Submarine multichannel 83
Carbon—Impermeable cellulose 22
Carbon — Impermeable cellulose, accepts fine surface finish....(*brief*) 142
Computer, digital — Power-system analysis using the 103
Computers—Magnetic films for storing information in 18
Cosmic-ray measurements in the 'Ariel' satellite 39
Crystallography: lanthanum niobium oxide....(*brief*) 21

D

Data transmission system—A high-speed 129
Designing the impulse strength of power transformers 124
Digital computer — Power-system analysis using the 103

F

Films—Magnetic, for storing information in computers 18
Fluorescent tubes — Mercury-vapour density in 75

PAGE

G

G.E.C. practice and techniques—Testing large induction motors 59
Glass—Optical techniques to assess inhomogeneities in 122

H

High magnetic fields — Superconducting magnets for the generation of 114
High-speed data transmission system —A 129

I

Impermeable cellulose carbon 22
Impermeable cellulose carbon accepts fine surface finish....(*brief*) 142
Induction motors — Testing large, G.E.C. practice and techniques 59
Inhomogeneities in glass — Optical techniques to assess 122

L

Lanthanum niobium oxide—Crystallography....(*brief*) 21

M

Magnetic films for storing information in computers 18
Magnets—Superconducting, for the generation of high magnetic fields 114
Mercury-vapour density in fluorescent tubes 75

PAGE

Missile test equipment for 'Seaslug' Mark I 65
Multi-channel cable links in Italy—Submarine 83

O

Optical techniques to assess inhomogeneities in glass 122

P

Phosphor screens — Transparent .... (*brief*) 74
Power-system analysis using the digital computer 103
Power transformers—Designing the impulse strength of 124

R

Railway wagon movement—Automatic recording of 136
Rectifier—Static, excitation of large turbo-generators 31

S

Satellite — Cosmic-ray measurements in the 'Ariel' 39
'Seaslug' Mark I—Missile test equipment for 65
Static rectifier excitation of large turbo-generators 31
Submarine multi-channel cable links in Italy 83
Superconducting magnets for the generation of high magnetic fields 114
Synopses 56, 100, 144

T

Technical literature 54, 98, 143
Telephone transmission—past, present and future 3
Testing large induction motors—G.E.C. practice and techniques 59
Transformers, power—Designing the impulse strength of 124
Transparent phosphor screens .... (*brief*) 74
Travelling-wave tubes 91
Turbines, 500 MW — Vibration properties of blades for 45
Turbo-generators, large—Static rectifier excitation of 31

V

Vibration properties of blades for 500 MW turbines 45

W

Wagon movement, railway — Automatic recording of 136
